PROFESSIONAL SUMMARY

Information Systems student at BINUS University with an interest in Product Design and digital product development. Through academic projects, I have worked on UX research, interface design, prototyping, and system requirements analysis. I enjoy understanding user needs, breaking down problems, and turning ideas into practical digital solutions. I am looking to apply these skills in a professional environment while learning from experienced product teams.

PROJECT EXPERIENCE

UI/UX Designer | KFCku Mobile App Redesign – Team Academic Project *June, 2026*

- Conducted user research to identify user needs and pain points within the existing mobile ordering experience.
- Redesigned key user flows covering promotions, vouchers, dine-in, delivery, and takeaway experiences.
- Developed wireframes and high-fidelity prototypes in Figma based on research findings and user requirements.

Product Designer | PurePlate Food Delivery App – Team Academic Project *September, 2025*

- Designed a food delivery app concept focused on restaurant discovery, category-based filtering, and streamlined ordering.
- Defined user flows and key feature requirements for food discovery, order placement, and order tracking.
- Developed wireframes and interactive prototypes to communicate product functionality and user experience.

System Analyst & UI/UX Designer | Timeless Cuisine Resto – Team Academic Project *September, 2025*

- Analyzed restaurant business processes to identify operational needs and define functional requirements.
- Modeled system workflows, interactions, and requirements through system analysis diagrams.
- Translated system requirements into interface designs aligned with user needs and operational workflows.

EDUCATION

BINUS University – Information Systems *July, 2024 - 2028*

Cummulative GPA: 3.54 / 4.00

Relevant Activities & Competitions:

- **BINUS Connect Business Case Competition 2026** – Participant | August 2026
- **Mini Case Competition – Rumpun Day Penalaran** – Participant | October 2026

Relevant Coursework: User Experience Research and Design; User Experience Design Principles and Concept; User Research & Evaluation for Experience Design; Advanced Prototyping and Interaction Design; Information Architecture & UX Writing; Information Systems Analysis and Design.

SKILLS & CERTIFICATIONS

Hard Skills: UI/UX Design, User Research, Wireframing, Prototyping, Usability Testing, A/B Testing, Figma, Requirements Analysis, UML, HTML/CSS.

Soft Skills: Analytical Thinking, Problem-Solving, Communication, Collaboration, Empathy, Critical Thinking, Adaptability, Decision Making, Attention to Detail.

Course Certifications:

- Enterprise Design Thinking Practitioner – IBM | Sep 2026
- Decision-Making Strategies – LinkedIn Learning | Sep 2026
- User Experience Design Fundamentals – IBM SkillsBuild | Sep 2026
- Agile Explorer – IBM SkillsBuild | Sep 2026

Language: Indonesian (Native), English (Intermediate)
